February 2026

Dear Crafty Friends,

February has arrived, and with it comes a season full of connection, creativity, and a little extra love here at Crop Paper Scissors. While winter may still be lingering, our craft tables are buzzing with color, inspiration, and the joy of creating together.

This month is all about celebrating what we love—handmade projects, creative friendships, and time set aside just for you. Whether you're crafting for someone special or simply creating for yourself, February is a beautiful reminder that the best things are made from the heart.

We hope you'll join us for classes, open studio time, and plenty of opportunities to slow down, get cozy, and make something meaningful. There's no pressure for perfection here—just creativity, community, and fun.

Thank you for being part of our crafty community. We can't wait to share another month of inspiration, laughter, and handmade moments with you. ❤️✂️
